## LET'S GET LOUD

If you're longing to pump up that volume and give your neighbours something to really complain about, you're in luck. Intex has released their new range of 5.1 subwoofers. The speakers can source sound from TVs, DVDs, VCDs and good, old music CDs too. And if you've run out of pre-recorded music, tune in to your favourite FM radio station. The price ranges from Rs 2,700 to Rs 5,800.
