## Intex launches eco-friendly monitors

**Express News Service**

Jan 11: Intex Technologies (India) Ltd, has unveiled ultra-slim, light weight range of wide screen TFT-LCD monitors. The new offering is available in three models - 1404 W, 1504 W and 1704 W.

The monitors are equipped with RoHS (Restriction of Hazardous Substances) compatibility, are environment-friendly, causing no toxic e-waste, a release stated.

The user could savour multi-tasking and good quality visual output on the wide display area for computing, multi-media and gaming applications. The monitors also score high on convenience and space saving features. The Vista compatible range is available at a MOP ranging from Rs 7,000 to Rs 9,900. Sanjay Kumar, Product Manager-PC of Intex said, "The 1404 W, 1504 W are apt for basic computing needs and are a perfect choice for students, home users, SOHO and small enterprises.

Professionals, big corporates and entertainment enthusiasts could find the best desktop companion in 1704 W."
