### *Intex Expands its Sensation Series of Home Theatre Systems Introduces two new models*

Pune(Voice News Service):- With the inclusion of two more models- Sensation 51130 and 51125 Wooden, Intex's home theatre portfolio, now, has five offerings for the audio-video buffs who prefer to enjoy the 'in -theatre' experience sitting cozily in their homes.

Sensation 51130 , donning an elegant silver look, delivers 130 W RMS output through its five satellites and one woofer. Dynamic Virtual Fluorescent Display adds to the visual appeal with bright vivified volume and other bars dancing to the tunes of music. An infra red remote control enhances the user friendliness. The unit is available at a MOP of Rs. 13,500/-.

Rajeev Rohatgi, Product Manager-Entertainment Electronics said, "Capitalising on the buoyant market response for its subwoofer range, Intex wishes to make its mark in the rapidly expanding home theatre market also. Fueled by increasing base of young population, rising disposable incomes, higher rates of consumer spends and booming retail sector, the market has high potential. We aim to create a niche for ourselves amongst the value & quality conscious buyers.
